help me prepare for my 1:1 performance review with Jada
Overview
Jada Baker's performance over the past year has been marked by significant achievements and constructive feedback. Her activities have focused on strategic planning, customer satisfaction, and team productivity improvements. While her performance goals data was unavailable, her achievements and feedback provide a comprehensive view of her contributions and areas for development.
Activities
Review and discuss customer feedback: Jada worked on increasing customer satisfaction scores, although she faced challenges in this area.
Define AI strateg ccessfully improved team productivity by implementing AI tools.

Insights will not be saved. You may consider supporting the successors' development by managing their development goals, assigning learning activities, and evaluating their role readiness.
Overall Summary
Role Overview
The Production Director role requires strong competencies in cost control, time management, problem-solving, and ensuring workplace safety.
These skills are critical for managing budgets, meeting deadlines, resolving operational challenges, and maintaining a safe work environment.
Successors Analysis
Two of the four successors demonstrate potential as future leaders, which aligns with the leadership demands of the Production Director role.
Most successors possess some relevant skills for the role, such as problem-solving, working safely, and managing time, but gaps in key competencies like controlling costs are evident across the pool.
The majority of successors have diverse and relevant work experience, but there are variations in tenure and alignment with the specific requirements of the target role.
Successors
Ben Shervin
Experience and Progression
Ben Shervin has extensive experience as an Engineering Manager, holding this role since 2013, with a prior role in engineering. This demonstrates a strong background in leadership and technical expertise, which could be relevant for the Production Director role.
Performance and Key Achievements
Ben Shervin's overall performance is rated as 'Good'.
Strengths and Potential Areas for Growth
Ben Shervin demonstrates strengths in adapting to change, team building, and delivering high-quality work, which align with the target role's focus on leadership, safety, and operational efficiency. Additionally, his skills in change management and strategic planning indicate potential for managing complex production environments. However, there is a notable gap in the 'Controlling Costs' competency required for the role. Ben has been identified as having potential as a future leader.
Gabrielle Pape
Experience and Progression
Gabrielle Pape has held various administrative and quality assurance roles since 2016, with her current role as an Administrator since 2022. However, her experience does not appear to directly align with the leadership and operational management demands of the Production Director role.
Performance and Key Achievements
Gabrielle Pape's overall performance is rated as 'Good'.
Strengths and Potential Areas for Growth
Gabrielle Pape demonstrates strengths in delivering high-quality work, driving continuous improvement, and managing time, which partially align with the target role's requirements. However, there are significant gaps in key areas such as controlling costs and working safely, which are critical for the Production Director role.
Jada Baker
Experience and Progression
Jada Baker has held roles in program management since 2017 and recently transitioned to a PMO Office Executive role in 2025. This background suggests experience in strategic planning and project management, which may align with the Production Director role's requirements.
Performance and Key Achievements
Jada Baker's overall performance is rated as 'Good'.
Strengths and Potential Areas for Growth
Jada Baker demonstrates strengths in strategic planning, team building, and controlling costs, which are relevant to the Production Director role. Her skills in managing time and problem-solving further align with the role's requirements. However, she may need to develop her expertise in working safely to fully meet the role's demands. Jada has been identified as having potential as a future leader.
Akoshile Ray
Experience and Progression
Akoshile Ray has extensive experience as a Capacity Planning Manager since 2015, showcasing a strong background in planning and resource management, which is relevant to the Production Director role.
Performance and Key Achievements
Akoshile Ray's overall performance is rated as 'Excellent'.
Strengths and Potential Areas for Growth
Akoshile Ray demonstrates strengths in adapting to change, problem-solving, and working safely, which align with the target role's requirements. Additionally, his expertise in strategic planning and continuous improvement is a valuable asset for the role. However, there is a gap in the 'Controlling Costs' competency, which is critical for the Production Director role.

Reality check: Governance, security & AI units

CLEAN&STRUCTURED DATA

Çöp veri, çöp agent üretir; veri kalitesi kritik.

ROLE-BASED PERMISSIONS

RBP ile hassas veriye güvenli ve yetkili erişim.

AI UNITS & LICENSING

Base ile Premium AI yeteneklerinin mimari sınırları.

Bir AI projesinin başarısı ne kadar akıllı olduğuyla değil, ne kadar güvenli ve denetlenebilir çalıştığıyla ölçülür.

Humanless ≠ Human-free

AI CAN

- Summarize & Detect
- Recommend & Predict
- Prepare & Draft
- Execute supported multi-step actions

HUMANS MUST PROVIDE

- Judgment & Empathy
- Context & Ethics
- Ultimate Accountability

İnsanı karar öncesindeki operasyonel yükten çıkaralım; kararın ve liderliğin sorumluluğundan değil.

What should HR become?

BEFORE

Process Executor

AFTER

Decision Architect

Less administration. More strategic human impact.

LET AI WORK.
LET HUMANS BE HUMAN.

Humanless HR is not about removing people.
It is about removing work that gets in their way.
